

Side by Side Series 651L

INVERTER × Dual Fan Cooling

Dual Fan Cooling with Two Dedicated Fans

Super Energy Saving

Powerful Cooling

Cools even at **60°C** *1

*1 Tested by Hitachi.

Image of temperature distribution

Stabilizer Free

Cools under wide voltage fluctuations **130v-300v** *2

*2 Tested by Hitachi.

Image of voltage fluctuations

Long Cool Keeper

In the event of a power cut, the temperature in the freezer compartment is maintained to keep food fresh for 12 hours.

Cooling Retention **12 Hours** *3
Even during power cut

*3 Tested by Hitachi.

Applicable to freezer compartment.

Bright LED lighting

2L bottle pocket

3-layer freezer case

Independent 3-layer vegetable case

4L large capacity water supply tank

Tank Type Ice and Water Dispenser Makes Clean Ice from Mineral Water

Enjoy clean ice and water anytime from a tank water supply system

Just pour mineral or other purified water into the tank and ice is automatically made for you. The large-capacity tank holds a big 4L of cold water, and you can remove it for easy cleaning.

No Plumbing Required

Because the unit does not need to be connected to a tap, no troublesome plumbing is required, and you can install it virtually anywhere.

Easy One-Touch Selection

Crushed ice, ice cubes, or water are yours with simple one-touch operation.

Separate Compartment with Clean Technology for Fresh Vegetables

Clean Air and No Odor Transfer

The completely separate compartment is always full of clean air that has passed through a Nano Titanium filter. Of course, there's also no transfer of odors from other compartments.

Optimum Humidity of approx. 90%*1

Efficient, indirect cooling in each of the covered cases maintains high humidity at the optimum level of approx. 90% to assure long-lasting freshness.

*1 Tested by Hitachi. Differs depending on the amount and type of vegetables.

Outstanding Convenience

Touch Screen Controller

Innovative technology is also elegantly incorporated in the door. Flat glass panel controls let you change settings with a simple touch. And the surface has been tempered, so a wipe is all it takes to clean it.

Bright, Energy-Saving LED Light

Both compartments feature LED lighting that lasts a long time and consumes much less energy than conventional Lamp.

Elegant Bottle and Wine Shelf*2

This elegant shelf enables proper storage of bottles to prevent them from rolling. It also holds bottles at the optimum angle for storing premium wines.

*2 Premium Series Only

Extremely Large Capacity

Large Capacity, Counter-Depth Fit

Thanks to its unique low-floor design and compact evaporator, this space-saving refrigerator offers amazingly large storage capacity with a depth of 600mm, the same as a kitchen cabinet, making it an ideal match for modern kitchen interiors.

Extra Storage Space

The ice bank on the door enables storage of items right up to the top of the freezer compartment. Now you can enjoy a large 18L of extra storage space.

Nano Titanium

Nano Titanium is a cutting-edge technology that uses a TiO₂ catalyst to provide a powerful anti-bacterial, anti-mold and deodorizing effect. It's also maintenance-free and requires no extra energy.
