Selectable Mode Compartment Layout Flexibility for Even More Convenience

The Select Levers located on both sides provide an easy way to switch between the Dairy/Meat and Vegetable modes by adjusting the temperature in each side of the compartment. And you can move the separator to change the size of the left/right areas for extra layout flexibility.

Vegetable Mode
■For storage of more fruits and vegetables
■Enables organization of items by size
■For storage of easily damaged soft fruits and vegetables

Dairy/Meat Mode
■For storage of dairy products
■Keeps meat and fish fresh
■Thaws frozen meals
■Rapidly cools drinks

Big, Moisture-Guard Vegetable Compartment

The vegetable compartment also offers ultra large storage capacity. It's wide, deep and goes back a long way, ready for even big fruits and vegetables. And the movable separator enables easy, neat storage.

Optimum High Humidity with the Moisture Guard

The Moisture Guard on the top of the vegetable compartment ensures indirect cooling to maintain the optimum moisture level. This prevents moisture escaping from vegetables so they retain their freshness.
High Humidity approx.
90% *2

*2 Tested by Hitachi.
Differs depending on the amount and type of vegetables.

Double Deck Vegetable Storage

Select the Vegetable mode of the selectable mode compartment, and it becomes a second storage area for vegetables, adding an extra 31L of space. This is ideal when you have a lot of fruits and vegetables and want to store items by size.

Mega-size Refrigerator

LED Control Panel

LED Light Bright, Energy Saving

Nano Titanium
Nano Titanium is a cutting-edge technology that uses a TiO_2 catalyst to provide a powerful anti-bacterial, anti-mold and deodorizing effect. It's also maintenance-free and requires no extra energy.
