

Solfege Series

390L / 336L

INVERTER

Super Energy Saving

Stabilizer Free

World Leader in Cooling and Eco-Friendly Performance

A refrigerator operates nonstop every day. Ready to satisfy all of your daily needs, an inverter refrigerator adjusts cooling power as required to provide intelligent cooling and energy saving.

Compact but High Power Inverter Compressor

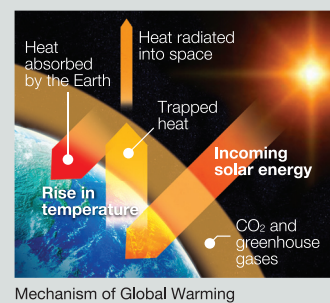

The high-precision, high-durability inverter compressor finely adjusts cooling power over a wide range from high to low. Unlike a conventional compressor that cools only by switching on or off of a fixed power, the inverter compressor is capable of providing exceptionally powerful cooling by generating a large volume of chilled air, while also providing efficient low power cooling. Depending on conditions inside and outside the refrigerator detected by Eco Thermo Sensor and with microcomputer control, it provides optimum cooling power at all times.

Image of Inverter Operation

R-600a Eco-Friendly Refrigerant

Hitachi's inverter compressor uses the refrigerant R-600a. It's free of CFCs, so it has an ozone depletion potential of zero, and free of HFCs, so it also has an extremely low global warming potential 1/400 that of conventional refrigerants. The other good news is that as well as being eco-friendly, it provides high cooling efficiency and helps to save energy.

Quiet Operation

Operation switching to a lower setting and minimal compressor on/off switching let you enjoy a quiet, peaceful living environment. The compressor's high precision further ensures smooth on/off switching with reduced noise.

Independent Vegetable Compartment

Located in the middle where it's easy to see and pull out. The double-deck construction also enables easy organization of items. Ideal for storing large quantities of fruits and vegetables.

High-Moisture Cooling

Optimum humidity is maintained inside the compartment to keep vegetables fresh.

Refrigerator Compartment

Bright, Energy Saving LED Light

The refrigerator features an LED light that lasts a long time but consumes much less energy of conventional Lamp.

LED Control Panel

Positioned right above the handle, the LED control panel is easy to see and enables simple one-touch operation.

3-Way Flexible Shelf

Foldable shelf for items of various sizes.

Nano Titanium

Nano Titanium is a cutting-edge technology that uses a TiO₂ catalyst to provide a powerful anti-bacterial, anti-mold and deodorizing effect. It's also maintenance-free and requires no extra energy.

Freezer Compartment

This also features a double-deck construction for easier organization of items.

Automatic Ice Maker

Fill the tank in the refrigerator with water and ice cubes are automatically made for you in a convenient position.

INVERTER

Refrigerator Compartment

- 3-Way Flexible Shelf
- Tempered Glass Shelves
- Slide Out Fresh Room
- Jumbo Door Pocket
- LED Light

Vegetable Compartment

- Slide Type Double Deck Drawer
- High-moisture Cooling
- Bottle Corner

Color
Glass Black (GBK)

Freezer Compartment

- Slide Type Double Deck Drawer
- Automatic Ice Maker
- Quick Freezing

General Features

- Inverter Control
- Eco Thermo Sensor
- LED Control Panel
- Nano Titanium Filter
- Moldproof Door Gasket
- No Frost
- CFC Free
- HFC Free

Color
Glass Silver (GS)

SPECIFICATIONS

Category		Solfege
